AMERICAN WAY OF LIFE?

Remember Declaration of Independence

Where Liberty Counts, What Difference Whose Slave We Be ?!

ROOSEVELT vs. HITLER

Great Britain has spent over 200 million dollars, tax monies from the British treasury, to capture America. This propaganda war, connived with the help of Roosevelt and the International Bankers, has cost the U. S. already billions of dollars in actual loss, has produced ill will at home and abroad and is about to merge this nation into the maelstrom of war **against its own interests** as an independent people. All this is being done in the name of "preserving the American way of life", of preserving the "four freedoms everywhere on earth" except in the U. S. A.

Even Paul Mallon has succumbed to this propaganda psychosis. Writes he in his column:

WASHINGTON, March 4—Some readers and editors have inquired about my personal opinion as to whether the president's sell-lease-lend-giveaway bill should be defeated or delayed. It is the policy of this column to tell what the world is doing, not what it should do. Advice is the only commodity the value of which will not rise in a war-torn world. My opinion, for whatever it is worth, is this:

The bill is more than half what its strongest opponents have contended—blanket legislation, almost unlimited in its vague scope Worst of all, it fails to give the people any idea of how little or how much it may cost them in money or lives.

Yet, defeat or delay would be a dire mistake, for reasons other than those mentioned in the congressional debate

The course charted in blank by the bill was entered upon by Mr. Roosevelt before election. It was fixed when he transferred the destroyers. That was the first overt act of war. If his course was wrong, that was the time to stop it. Instead, both he and the course have been overwhelmingly approved and the course expanded.

To stop the course now, or to hinder its success by amendments, would leave this country in a world war crisis with a descredited president and a discredited policy. It would be suicide.

The alternative therefore is clearly more dangerous than the bill. What the country must have now is success for the adopted course. It cannot afford to seek anything else, or use any less than its utmost energy. We must win.

Roosevelt vs. American Way of Life

The American Way of Life was charted long before Roosevelt transfered the 50 destroyers to Britain, it was charted when the Founding Fathers drew up the Declaration of Independence from Great Britain. The American people are now confronted with discrediting this policy and committing suicide as an independent people. Roosevelt never had any use for the Declaration of Independence where it ran counter to his designs of dictatorship. It was not Hitler who menaced the American way of life by packing the supreme court, forcing upon us the NRA and the rest of un-American regimentation. It was not Hitler who declared the constitution to be outdated and of the horse and buggy age. If anybody needs discrediting, that the American way of life may continue in the U. S. A., it is Rosevelt, his policies, foreign and domestic.

What difference does it make, where liberty is concerned, whether Roosevelt is our master or Hitler? Once regimented, once our youth is drafted to fight England's battles for International Jewry and their profits; once our girls cannot marry since their men are drafted, but may "pep" them up through prostitution; once our taxes eat up our earnings to make the world safe for Rothschild, Sassoon, Warburg, Kuhn Loeb and the Morgenthau clan; once you cannot call your soul your own but must do as the boss in the White House dictates because his supreme court is packed; his congress rubberstamps; his army and navy must obey the commander in chief and you are drafted into it; where is liberty, where is the American way of life?

Don't Gag the Senate !

We still have a chance to preserve the American way; the right to free speech by maintaining it in the U. S. Senate, the last bulwark of the American way. It is gone in the supreme court who protected us from the NRA while it was yet a court and not an adjunct to the White House; it is gone in the public press where hysteria and Jew money prevails; it has long since disappeared from the radio programs at large, except where a few senators and others appear. The destiny of America is not to lower its own standards and accept British-Jewish rule, but to stand out against any such encroachments and condemn both the Nazi & British encroachments upon the freedom of the seas, the freedom of small nations and the freedom of America itself which must get navicerts from the British to trade with other peoples.

Only in the measure that Americans stand out as an independent nation, too proud to lower themselves as cat's paws for the international Jewry and the British exploiters of world trade, that the American way will be preserved. If America must fight to preserve its way of life, it naturally must fight the British, the Jews and the Nazis as well as the Communists. All of them have no use for the American way of life; all of them are brutaltiarians, subversive to our own independence; all of them play us for suckers; all of them are equally tainted and tarred with the same brush of treachery.

Let us stand by the principles in the Declaration of Independence; let us stand by our unalienable rights and not give them up to an American dictator; lets stand by our constitution and command congress not to give away powers it never had itself to annul the constitutional provisions; in fact let's be American instead of appendages to Britain and International Jewry. Let's make our enemies fear and respect us, let's keep them in their proper place;—then, only, can we continue our own American way of life, as free, unregimented citizens of a free Republic.

Why Ruin Farmers Market ? !

My dear Mr. de Aryan:

Here is some information about Rancher's Market 8th and G St. It was started about 35 years ago. About 20 years ago the councilmen ruled we should be exempt from license.—Now, after 20 years, the Board of Health (for their convenience) claim no such exemption can be found on record. In most other cities the farmer (the back-bone of the country) has the co-operation of the city "fathers" who even build modern markets and let the farmer bring in his fresh vegetables to the consumer, at little expense to the grower; who already pay their share to the city and county in taxes and water rates.

Recently we rebuilt our market to comply with Health regulations—concrete and iron, at considerable expense; so if this extra $5.00 tax each on about 22 farmers—plus blood test expense is forced on us, we'll be compelled to close and will bring our vegetables to the commission houses, where the rats can run over them for a few days to make them sanitary enough for the public to eat—so, goes the world round and round—Seems like the collecting of money comes first—health of public is secondary with Board of Health. Farmer's Market on Causeway were forced to close, "too many overheads".

Request for exemption will come before council at next meeting. We have market days only twice a week—Wednesday and Saturday.

Sincerely, ERNEST ROEPKE.

AMERICAN

OFFENSIVE 1776

By Erichthonius

It appears that somnambulant dopey USA, is finally waking up to the dangers lurking within, the **Enemy within** its gates: that sneaking, hypocritical, fraudulent and home-made Dictatorship, purporting the Defense of these United States and "for other Purposes".

In reality the purpose of this fraudulent Bill is for no "other purposes" than to "give Aid and Comfort to the Enemy". And this eternal enemy to the USA is none other than the great champion of "Democracy and Christianity"—the British Empire, its Churchills, Duff-Coopers, Lloyd Georges and other whiners (with some of our own Southern Senators thrown in for good measure, these gentry fearing for their cotton and tobacco trade with Britain; for "business is business" and never mind the true welfare of these United States).

The flood of mail and telegrams to our stalwart American Senators, such as Wheeler, Nye, Hiram Johnson, Taft etc. is enormous. These men are all good Americans, wherefore they are against this fake Bill 1776.

But unfortunately there are a vast number of "order-taking" Senators for this "ball and Chain-Bill" and this strange brood of schizophrenic boys (dementia praecox group) have also received their marching orders, but from the people, this time, instead of from their would-be Dictator, as hitherto.

There is, for instance, muddle brained Harry H. Schwartz, Senator from Wyoming, who says "he just MUST vote for the bill". This is what we wrote him:

(Schwartz means "Black" by the way):

"Dear Harry Black—If you MUST vote, as you say, for Bill 1776, you don't live in a "Democracy".

In a true Democracy there is no vicious MUST LEGISLATION; such "command" comes only from dictators—and you say you despise them so.

However there **is** a difference in Dictatorships, viz.:

HERE Dictatorship means: losing that which we still have; while

OVERTHERE it means: to regain that which they had taken from them—Economic Freedom.

What made them lose it?

First, their perpetual internecine strife (lasting 1100 years); Secondly, the predatory aims of your good friend—the "ennobled" British Empire—making suckers out of the Continent of Europe, just as she has made of US ever since the USA set up housekeeping of their own (not to mention the rest of the world, including poor Ireland, Egypt, India, the Boor Republics—and after the "great War" Poland, Holland, Belgium, Norway, Czecko-Slovakia and even France herself).

Bill 1776 is a clever continuation of Britain's Machiavellian schemes against us, whom they prefer to class with—the "Chinese" (are'nt you proud?!!!).

Anyone voting **for** this Bastard Bill (1776) is indeed a friend of the British Empire, **but by** the same token he is also an Enemy **to** the United States.

Every member of your august body (the Senate) has received at least one copy of THE TRUTH ABOUT England, written by T. W. Hughes, of Los Angeles (Box 9115 Station S). Wherefore, not a single man can say he did not know the Facts in the case.

Anyone voting **for** this bill is therefore giving "Aid and Comfort to an Enemy" of ours—and that makes such a man's vote: TREASON (see Constitution III, 3).

Have no doubt about it: The man who votes for this nefarious un-American monstrosity does so at his own Peril."

IMPEACHMENT

And here is what we told such mouth-foamers as old Carter Glass of Virginy (who don't mind at all to send our young lads into the shambles), William H. Smathers (New Jersey), James S. Tunnell (Delware), Styles Bridges (New Hampshire)—the Senator, not the Australian labor "leader" whom Modom Poiky cawn't get rid of —try as she may! ! particularly since the interests of labor are now carefully watched by none other than Sidney Hillman, the Austrian-Yiddish fellow, top-man in our Government now ! ! ! !—(and all these Yiddish lice stick together, don't be afraid they won't):

"BRITAIN IS AND ALWAYS WAS THE AVOWED ENEMY OF THESE UNITED STATES.

But: The United States Constitution states that:

> . . . levying war against them (the USA), or adhering to their Enemies, giving them Aid and Comfort is TREASON against the United States. (Article III, Section 3).

It will seem that ere long the people will demand an impeachment of the framers, sponsors and every indorser of Bill 1776, and every official supporter thereof, for the simple reason that this bill 1776 is **not** for the DEFENSE of the United States—but solely for OFFENSE and "other purposes", namely: "giving Aid and Comfort to their (USA)—Enemies, while at the same time there happens to be a plethora of essential work remaining undone on behalf of the United States and its worthwhile people, not the least of which is: TO DEFEND THE USA against it sparticular home-made species of DICTATORSHIP.

White Slavers Are Here, $2 A Head

Our editorial in last week's issue concerning white slavery as a matter of "defense" to pep up with living "vitamins" the conscript boys in the camps, in order to avoid doping them with saltpeter, brought some howls of "outrage" from two subscribers who promptly cancelled their subscription.

War is not nice. Armaments are not nice. It means murder, cripples, insanity, there is no glory in war. It also means rape, prostitution, gonorhea, syphilis. There is nothing nice about it, but it is all part of war, "patriotism" and defense, if you please. You cannot have the one without the other the moment you herd men together in camps, in the army and navy and separate them from their women, whom they would marry under normal conditions. The National Whirligig presents on March 6:

NEW YORK,—In one shipyard town 10 and 12-year-old newsboys were getting rich quick, introducing workers to local girls, many under 16, at $2 a head. —S. Burton Heath.

Conscientious Objectors

"Conscientious objectors is expected to equal 20,000 the first year . . . and government has on its hands more objection to army service than developed throughout the entire first World War, when only about 4,000 conscientious objectors appeared out of a total of more than five million men drafted."—Christian Century, 2-19-1941..

Declared a legal paper of general circulation for the County and City of San Diego, by Superior Court order, January 15, 1932.

Entered as second-class matter March 27, 1931 at the postoffice of San Diego, California, under the Act of March 3, 1879.

Harold Nathan, San Diego FBI Chief

(Over KGB, Wednesday 7:15 pm, March 5, 1941)

There is going to be no chance for complaint that the San Diego defense area is being neglected by the FBI. The saboteurs, Nazi spies, if any, and Axis borers from within, will be well traced and not even the B'Nai B'Rith will be able to complain that the work is not being done by the best available man who has no sympathies for Hitler.

Harold Nathan, the man who has been next to J. Edgar Hoover himself, as assistant FBI director, has been transferred to our city. As usual, where the New Deal administration is concerned, there are rumors of interdepartmental rivalries, as we all know about the friction between Secretary Ickes and the rest of the new dealers and all their hullabaloo concerning the wire tapping in the offices of anti-administration senators, congressmen and other public and private individuals. So it is being rumored that there is friction between Hoover and his assistant who has been given this important post farthest away from Washington, killing two birds with one stone.

Jews Hold Key Positions

Nobody in America needs wory that the Nazis will get the upper hand in internal activities in the U. S. They are being watched exceedingly well and the key positions are being held by men who do not love the Nazis. Just to name a few: Mr. Roosevelt, himself in the White House; Felix Frankfurter on the Supreme Court; Henry Morgenthau running the treasury; Sol Bloom on the foreign affairs committee in the House; Benjamin Cohen educating even England to the value of the new deal; Sidney Hillman on the defense board; Judge Yankwich on the federal bench in Southern California and now Harold Nathan himself in San Diego: what chance could a Nazi have to pull anything off? What worries me more is that the Communists can still call strikes and disrupt orderly processes of life. With all these important men in key positions it worries me that subversive agitators have not been curbed, but rather encouraged as one can see from the fact that foreign agitators are still with us since Mr. Landis ruled in favor of Harry Bridges and the National Labor Relations Board upholds the idea that men, American men and women, must pay union dues before they are permitted to earn a living.

Good Riddance

Mr. Wendell L. Willkie,
Ellwood, Indiana.

Dear sir: I have just finished reading your message to the German people. You are following in the footsteps of the rest of the New Dealers, gadding around the country and "shooting off your mouth" about things that are none of your business. Because you were runner-up in the November election don't think that you have been appointed to use your Indiana drawl to express the sentiments of the rest of us Americans, German or otherwise.

If you are so much against "agression, hate and lust for power", why are you so keen to aid Britain, the personification of all those things, the greatest land grabber the world has ever known. Instead of criticising the government of the German people why don't you stay at home and help to clean up the rottenness in our own? No one is in a better position to know just how rotten it really is than you, who are associated with the men responsible for this condition.

In the last election I voted for you, not exactly **for** you, rather against the present incumbent, there wasn't much choice. And if all the votes cast in that spirit were cancelled you wouldn't have received many more votes than Mr. Thomas, who has shown himself to be more of a man than either one of you. For making people disgusted with you, you deserve a blue ribbon.

No doubt Germany in the nineteenth century, was as pleased to have your people leave there as they are today, to lose the ones who are coming here as refugees.

Regretfully yours,
MRS. BERNICE PADDOCK REINSCH,
Tacoma, Washington.

BUILDING A SEWER

Hurry up, boys, we must get there on time;
We're digging a sewer; we're on the soup line;
We're part of a New Deal—the W. P. A.;
We dig in the ditch for two-thirty a day.

We shiver and shake as we stand in our rags,
Lie to each other and tell worn out gags;
Every shovel of dirt we heave from the ditch
Means a new Baby Bond for those who are rich.

But keep right on digging, don't have any fears,
These Bonds are not due for twenty-one years.
Our boy is conscripted; we've nothing to say;
He'll be off to the Army most any old day.

They'll train him to fight, and teach him to kill
His fellowmen with the greatest of skill;
Then when he is trained a boat will be sunk,
And over the ocean will go the poor punk.

We take off our hats, and we yell, and we rave,
Aur Sonny is fighting, Democracy to save.
When it's all over, and we count up the cost,
Democracy is saved **again,** but Sonny is lost!

Yes, Democracy is saved for those who are rich,
But for we old fathers they'll save only a ditch.
—W. P. Ayer.

AMUSING AMERICANS

They speak of a friend and call him a horse.
They speak of a tramp and call him a snake.
Or else he's a dope or a bum or a heel.
But things are all right when they call them "jake".

So nice food is grub or chaw or eats,
And a girl is a frail or only a skirt.
It's all a humdinger if you know the slanguage,
And you may get razzed but you won't get hurt.

MAY BE TRUE

Mr. Hearst reminds his Examiner fans that Col. Lindbergh did tell the truth about the relative strength of the Nazi and Russian air forces a few years back, and that perhaps some of the things the Colonel is now telling America may also prove to be true. It is also recalled that Billy Mitchell was so frank about something, once upon a time, that he was thrown out of the U. S. army, but everybody today admits that what Billy said was the gospel truth. It just seems that it is a little difficult for us to pick the prize winning truth tellers amongst us!—Terra Bella News.

Defense "Priorities" — More Unemployment — Business Failures

WASHINGTON,— The inescapable fact is that general priorities and you-can't-buy-that orders are coming. In a recent press conference Mrs. Roosevelt advocated drastic reduction on all except necessary purchases. The howl from retailers amazed the first lady when she opened her next morning's correspondence. She talked before her husband was ready to break the news.—Ray Tucker.

C. Leon de Aryan, East San Diego, Calif.

Dear Friend:

I indeed appreciate your comments and encouragement concerning my stand on the foreign policy of the United States.

We are fighting an uphill battle, as propaganda has done its work well. Whether the tide of reaction which has set in will run high enough to counteract the gains made by those preying upon the emotions and sympathies of the people is still very much a question. Let us hope, however, that the combined efforts of all of us who are awake to the horrible implications of the course now set can prevent our country from being dragged into another foreign war.

Thank you for writing. Your support is most heartening.

With kindest regards, I am
Sincerely yours, D. WORTH CLARK.

The following item was taken from Walter Winchell's column a few days ago and should prove of interest to Truth Teller readers.

"On Christmas day, The Herald Trib ran an ad captioned: 'This is on our Conscience' . . . It was a plea for people to buy medical supplies for both sides. It was signed 'A Humble Humanitarian' . . . Sounds pretty nice, doesn't it? . . . Well, an energetic young man we know, decided to find out the name of the humble one and this is what he discovered . . . The man who paid for that ad was James Wood Johnson of 784 Park avenue. He is a nephew of the firm of Johnson & Johnson, the biggest makers of medical supplies in the United States."—The Truth-Teller, Battle Creek, Michigan.

OUR GROUNDHOG WORLD

By GEO. CARTWRIGHT

Capt. Elliot Roosevelt

I am a dashing captain
In the good old U. S. A.
For papa is the President
And always has his way,

And thinks his sons are just too good
To carry gun and pack;
To march and train and drill with boys
From down across the track.

So while those boobs are slaving hard
For just one buck a day,
I'll cock my feet upon a desk
And draw a captain's pay
—Guy E. Bradley.

The Call of War

Send me your youth, the best of your youth,
The courageous, clean and strong—
From city, hamlet, and countryside
Where life is a careless song.
Have him forget his house of dreams
With ivy around the door,
For I have a task for his eager feet,
Wallowing deep in gore.

Send me your youth, the pick of your youth,
You may keep the other kind.
I will tear the song from his careless lips—
The dreams from his boyish mind.
I'll drive him out where the cannons roar,
And rend him limb from limb—
And when I am through you can have him back,
Or all that's left of him.

In a heart that's free from brutality,
I'll sow the seed of hate
Until he goes forth with a lust to kill
Like a crazed inebriate.
I'll twist his soul with shameful lies,
As he carries my banners high—
And prate to him of a sacred cause,
While he stumbles out to die.

You have sent me your youth, the best of your youth,
A thousand times or more—
And I've left their bones in a shallow grave
On some beleagured shore.
I have plundered the world and laid it waste
With youth as my helpless tools.
Each time I call, you send them all,
For you are such hopeless fools.
Martin F. Owens.

If the rental value of all land, urban, mineral and agricultural were collected for support of government, **would more or less capital be busy producing things?**

If every holder of land was called on to pay the same tax, according to the value of his land, whether at work or not, **would any land be hoarded out of use?**

If the products of labor and capital were not taxed, **would there be more & cheaper products for every consumer, and an increase in their buying power?**

Why is a citizen holding a few gold coins an enemy of society, while the more land he holds, and whether in use or not, the more "successful" he is considered?

Dear Frend de Aryan:

The inclosed from England U may not have seen, or know of. Is it any wonder that morals of all sorts are going as low as war can put them? Dear Sir:

Every day, as war goes on, the strain and struggle become more terrible. Our Tobacco Fund is doing all it can to bring good cheer to the Fighting Men—on land, sea and air; in the hospitals; and to our men taken prisoners of war.

More than this, our Fund carries the kindly thoughts and encouragements from friends of Britain all over the world, to the men who are fighting for the freedom of all men.

I am sure that our friends in the U. S. A. would like to translate their sympathies into gifts of smokes. To send each man in the Forces a few cigarettes each wek, roughly 5,000,000 weekly would be needed. So far, we have been able to maintain an average of nearly 2,000,000 a week.

So, I am venturing to send you a Collecting List for our Tobacco Fund in the hope that you will be able to co-operate actively with our work.

Yours very truly,
JOHN JOCELYN WRENCH.

Good THOUGHT

Good WORD — Good DEED

The Power of God

"What does it profit a man if he won the whole world but lost his own soul?"

This is the day of judgment. You are the judge. Are you on the side of God or do you worship in the synagogue of Satan?

When the elders of the synagogue of Jerusalem took Jesus up to the mountain top and showed him the plains and hills of Palestine over which He could have absolute dominion, were He to lead the Jews into battle to chase the Romans out, Jesus countered with: "Get Thee behind me, Satan, for it is written that Thou shalt worship only the Lord, thy God".

And so this is judgment day for you also. You are being taken up upon the mountain tops of "democracy" and the synagogue of Satan has spread its emissaries everywhere singing from the radio and shouting from the broadcasting station the need of "liberation" from the Nazi yoke as they shouted in Palestine about the need of "liberation" from the Roman yoke. Jesus gave them their answer, what is your's?

In these days when the synagogue of Satan has captured the White House and Roosevelt has annexed the treasury of the U. S. to worship the Demon of War and Congress has made it a felony to worship God and refuses to heed the cry against training for futile warfare and carnage, it is up to the individual to decide for himself whether he proposes to line up with Jesus Christ and tell these devils where to head in or else bow to them and become their slave and enslave his children to pay tribute and the cost, enriching none else than the members of the synagogue of Satan.

God is Almighty

Every morning upon awakening I remember the presence of God. I remember eternity and the passing panorama of life here on earth. I remember that after all is said and done, the fundamental power of the Creator prevails.

For thousands of years they have done what Roosevelt is doing today. Even our Founding Fathers took recourse to warfare to free US from the British yoke, but they, too, have failed, because war does not free anybody.

Freedom is a quality of the spirit. Where men are not free in spirit they cannot achieve liberty by brutality. The wars of Independence and 1812 are wasted, for today these U. S. are as much a colony of Great Britain and the White House is an annex to Buckingham Palace, as if we had proclaimed "Union Now". For all practical purposes for the last 6 years this nation has been financing Great Britain's wars and preparations for war through the gold and silver purchase methods. We are paying for Britain's folly and our own. Liberty is not ours because our forefathers licked Britain in previous wars. Liberty is not won that way. We must win our own liberty each day by keeping our spirits free to worship only God, as Jesus taught us and none else.

What good has it done to mankind to have fought wars interminably? Have they achieved freedom or prosperity, have they shown good common sense?

If me must die, would it not profit us to die the death of one who prefers to give up his life in the servive of God, rather than in the service of the synagogue of Satan? For what does it profit a man if he won the whole world but lost his own soul? It is that soul that returns again to earth to take up life where he left in the last sojourn here and repair the damage he did that this may in the end become a paradise on earth. Why, then, not be heroes for real freedom, where one follows in the foot steps of the Christ, for that alone establishes Peace on Earth and Good Will towards all men!

DAIRYMEN TASTE BUREAUCRACY

OMAHA,—Dairymen in the New York milkshed have been operating under a marketing agreement, promulgated by the United States Department of Agriculture, that fixes milk prices and prescribes practices. In December, the department submitted amendments to the agreement, but they did not receive the necessary 75% affirmative vote.

The department then arranged to re-submit the amendments on January 21, and notified the dairymen that if the amendments were not adopted the whole agreement would be suspended. On January 16, the dairymen obtained a decree from a federal court enjoining the secretary of agriculture from either resubmitting the amendments or suspending the agreement, unless he should find that the agreement obstructed or did not effectuate the act of Congress under which it was promulgated.

On January 18, the secretary of agriculture suspended the agreement, effective February 28. New York dairymen are very much wrought up. They are getting a lesson in the folly of turning marketing over to a political agency.

Sham Battle

WASHINGTON,— Administration spokesmen are going through the motions of opposing the amendments designed to prohibit convoying or sending another A. E. F. abroad, but it is only a sham battle. After a careful study of these proposals, the neutrality act and the Constitution, it doesn't take a constitutional lawyer to discover that the prohibitions are meaningless.

Adoption of the Ellender amendment barring the sending of American soldiers to foreign soil will be only a gesture—an expression of congressional sentiment. Under the Constitution, the congress cannot infringe on the right of the commander-in-chief (the president) to dispose of American forces in any way he considers necessary for national defense. The same applies to the question of convoys. The neutrality act prevents the preseident from permitting any United States vessels "carrying articles" to enter the combat zones he has established. But the same law permits him to modify his danger areas proclamations as he may choose.

In reality, White Hous agents hope that both these seeming restrictions will remain in the bill when it reaches a final vote. In the belief that these amendments insure this country against active participation in the war (which they do not), many people inside and outside the senate may be persuaded to support the measure.

Sleight-of-Hand

Administration aids indulged in a bit of slight-of-hand to boost the bill permitting G-men to tap wires They even persuaded F. D. R. to violate his self-imposed rule of not interfering with legislation while it was before congress.

When the supreme court barred wire-tapping because of the evils and abuses it permitted—as revealed before the senate committee now investigating the problem —several congressmen sought to get around the judicial prohibition. They realized that a proposal giving exclusive wire-tapping privileges to the department of justice would not be passed. So they introduced measures allowing "all government agencies" to listen in on private conversations. By this scheme they hoped to obtain general support from liberals heretofore bitterly opposed to the practice. Instead, it aroused widespread opposition.

Then Rep. Tom Eliot got it into his head to ask the president's opinion on the subject. Eliot, incidentally, is the room-mate of White House Secy. James Rowe. And Roosevelt replied, as expected, that permission to tap-tap should be restricted to the D. of J. It probably will be enacted, but with a proviso that the law shall expire with the termination of the spy-chasing emergency.

'H. R. 1776'

Republican Publicist Franklyn Waltman jr. recently asked at a bipartisan dinner table what the "H.R." stood for in HR 1776. That is the number of the lease-lend bill.

Veteran members of both houses fell into a spirited dispute. Some said it meant House Resolution. Others argued that it stood for House of Representatives. Finally, they asked Waltman what it did signify

"Heil Roosevelt", replied Frank with an impish grin that was neither bi-partisan nor non-partisan.—Ray Tucker.

ELEANOR'S ECONOMICS

La Habra Star: Mrs. Roosevelt says it would be a good thing if people would get used to the idea of putting into government securities the money which they normally would spend for cars, aluminum goods and other items whose manufacture will be slowed down by defense production.

Then when the emergency is past they can cash the bonds and buy the goods, she is quoted as saying.

In the meantime, of course, the automobile business will be ruined and the distribution system fairly well wrecked. Neither does Mrs. Roosevelt explain where the government is going to get the money with which to cash its bonds when the emergency is past.

There are a great many other things down at Washigton which might stand a little explaining, too, if the lady can get around to it, some of her days.

DON'T GAG THE SENATE

(Over KGB, Wednesday 7:15 pm, March 5, 1941)

During my previous radio talk I took you into my confidence, showing each step taken by me two weeks ago and since, in requesting senators opposed to the passage of the lease-lend-give-away bill to prolong debate long enough for the country to awaken to the dangers contained in this bill with the present provisions which give power to the president to take us openly into war, as the opposition senators have stated repeatedly on the floor of the senate.

Last Monday I listened to Fulton Lewis Jr.'s comments as well as to John B. Hughes. Did you know that the administration intends to freeze the assets of all the nations in the world, which means the funds of the Axis powers as well as of Great Britain? The radio commentators stated that this means an actual act of war against the Axis. They also said that because it is an act of war the administration would not freeze the funds till after the lend-lease-give bill has passed. In other words, as soon as this bill passes, the administration is going to take the first open step which will cause the Axis powers to consider it a declaration of war that could not be ignored by them as previous acts of helping Britain have been ignored.

But some of you might say that the administration proposes to freeze all funds of all nations in the U. S. so that no discrimination could be charged against the Axis powers. That looks nice on paper, but in practice the funds of those nations which obey the President's policies would be unfrozen whenever those countries needed them and their expenditure approved, while the Axis powers could not spend theirs here or abroad. The significant thing is that this general freezing will not take place till after the lend-lease bill passes.

Senator Wheeler is explaining it in this way: He says that the bill gives power to the president to dictate to every country on earth how to conduct their own government as well as their foreign policy, by permitting him to subsidize them or to subsidize their competitors or opponents in commerce or politics. With the wealth and productivity of the U. S. in the hollow of his hand, with all the man power of this nation at his command, none of the South American nations could oppose the President's must demands, just as he pressed congress to pass his must legislation, says Senator Wheeler. It was Wheeler who stopped the packing of the supreme court bill and Wheeler again opposes the president on this legislation.

As to the filibuster in the senate, I told you how two weeks ago I sent five wires to five different senators; how the next day the matter was mentioned by one senator on the floor of the upper house; how Paul Mallon, the columnist, reported that the senators were hesitant about filibustering unless the people back home demanded it. I reported to you last week, how I got in touch with key people of the various organizations who oppose this bill, as well as the idea of getting us into the war to fight other people's battles, and as a result the senate has been deluged with requests for a filibuster or prolonged debate. I called your attention that the administration then decided not to press passage of the bill immediately and instead of it becoming law within one week, they are still debating it and are bringing out even more proof that it means war as soon as it passes in its present form.

Now we are coming to a new stage in this strategy of prolonging debate. Senator George of Georgia, has demanded that the senate pass a gag rule preventing the senate from debating longer than one hour for each senator and then proceeding to vote on the bill. The first effort at gagging the senate failed by one vote. But they are going to try it again. Since the President has said that it is the business of America to uphold free speech everywhere in the world, then let's have it in the U. S. Senate. So I have sent a wire to our Senator from California, Sheridan Downey, Senate office building, Washington, D. C. as follows: "Don't you dare gag the senate!" and signed my name to it.

Hiram Johnson won't gag the senate but Downey must be told what we expect of him. He is the man to wire to, or send an airmail letter, or even a postal card. Do it tonight.

I listened to Senator Wheeler's radio address last Monday night. He called the people's attention to one outstanding fact and named the small group of International Bankers for whom he says we are being maneuvred into giving up our own constitutional rights, as well as preparing to go to war. He said that the meat of the whole lend-lease-bill is to give the president power to send our army and navy everywhere in the world to protect the interests of the Rothschilds in the British empire; of the Sassoons in China, India and Singapore; of the Warburgs in the socalled neutral countries. Wheeler wants to know whether American youth and American wealth, the American form of government should be sacrificed to make the world safe for the Rothschilds, the Sassoons and the Warburgs? He says that when it came to pay the soldiers bonus, the pensions to widows and orphans of war veterans, the president, as well as the bankers, hollered that it would unbalance the budget; but now when it comes to protect the interests of the Rothschilds, the Sassoons and the Warburgs neither the president nor the International Bankers say anything about keeping the budget balanced.

Freedom of the Press

The small weekly papers all over the U. S. are presenting some gems of clear thinking. A letter is making the rounds which a constituent from New Mexico has sent to his senator in Washington. It is a jewel. It is too lenghty to be given to you in this program but you can read it in next Monday's (today's) Broom. I shall mention just one paragraph to give you an idea: "You as a lawyer know no powers were ever delegated to Congress to ignore or suspend a single provision of the Constitution under any circumstances or conditions whatever, yet congress wantonly tramples the guarantees and reservations of that great instrument under foot at each executive order, it seems. How can Congress grant to the Executive powers that have never been granted to Congress itself? How as a Christian gentleman, can you be silent today?"

Labor Racket

A. F. L. Super Government

WASHINGTON,— If you think it capricious for the A. F. L. unions to strike at Wright field, Ohio, and in Texas, merely because they found the presence of C. I. O. men or materials uncongenial, you should hear what Assistant Attorney General Thurman Arnold found in New York.

A group of 10 persons there secured an A. F. L. charter to organize lumberyards. The 10 men appointed a president for five years without election. They did not try to persuade workers to join. They made contracts with the yards, requiring the employes to pay their dues.

After thus conscripting a union in 40 percent of the New York yards, the leaders then secured the assistance of A. F. L. teamsters and longshoremen to drive the C. I. O. out of the city. They refused to allow lumber to be unloaded or transported to any yard employing C. I. O. labor.

Yet their indictment for restraint of trade was dismissed by the New York supreme court. Under the court's new law in the Hutcheson decision, unions can be guided only by their consciences, if any. The railroad brotherhoods could legally decline to deliver anything to any one they did not like and tie up the whole transportation system of the country, if they suddenly decided to dislike the whole country.—Paul Mallon.

Drinks Taboo Unless Food Bought, Ruling

LOS ANGELES,—Consternation spread over California following a court opinion which, some legal experts said, would require that whenever a person buys a drink he also must buy food.

The attorney who obtained a superior court ruling that sale of intoxicating liquors without meals is illegal in California, declared it "establishes a mandatory obligation on every district attorney in the state to enforce the law and abate these places as nuisances".

Nathan Newby sr., attorney for a former Anti-Saloon league official who brought the action in which Judge Lucius P. Green made the ruling cited a 1915 law which provides that:

"Every building . . . wherein liquors are unlawfully sold, served or given away is a nuisance which shall be enjoined abated and prevented."

The law further provides, Newby said that: Whenever there is reason to believe that such nuisance , . . exists . . . the district attorney, in the name of the people . . . must, or any citizen . . . in his own name may maintain an action in equity to abate and prevent such nuisance."

Byron J. Hanna and James McRoberts, attorneys for the defendants in the action, Mr. and Mrs. Vernon McDonald, declared Judge Green's ruling would be appealed immediately.

Firemen's Charter Amendments

(From Radio Talk KGB)

From reading the daily papers you might have received the impression here in San Diego that the Firemen won their fight concerning the city charter amendments to place their proposition for a 29% increase in wages and a six day week on the ballot at the general election Don't be too sure about it I am still in court. I have until March 10th time to amend my complaint. And one can never tell what I am going to do next as long as I know that I have Right and Principle on my side. Judge Charles C. Haines, of the superior bench, in whose court the demurrers were argued by Shelly Higgins representing the firemen and James Breckenridge for the City Council, Judge Haines deplored the method by which circulators of initiative petitions present just what appeals to them best in order to get people to sign petitions. Judge Haines does not seem to think highly about present day practices in circulating initiative petitions, but he also admits that it is mighty hard to correct the evils inherent in such practices by court action. Still, he says it is legally possible if I can show exactly the number of signatures that were obtained by false representations, so he refused to throw me out of court and extended the time ten days in which to amend my complaint, inspite of all the arguing of the attorneys for the firemen and the city.

Now the City Civil Service Commission is considering the problem of raising the wages of those city employees who are being poorly paid. The commission was expected to raise them 20%, but since the firemen are demanding a 29% raise all at once, the poorly paid employees might not get their original raise till the election is over and the commission can figure out how much money is left. The firemen are demanding six times as great a raise per individual than the rest of the city employees could possibly get even if the whole tax rate were raised 25c the coming year. And the firemen are better paid than any other employee in the city, but because they are a closed shop union they expect to rob the rest of the employees and hog it all.

C. LEON de ARYAN

. . . . exhibiting sign before Superior Court Judge Haines to prove that San Diego Firemen knowingly misrepresented to signers of petition that City Council refused to grant six day week.

Straight Talk In An Open Letter

Our New Mexico Correspondent says it forcefully to his United States Senator

Hot Springs, N. M., February 19, 1941.

Senator Carl Hatch,
Washington, D. C.,

Dear Sir: As I watch the antics of the present Congress I am forced to conclude that the majority of its members are the most lawless band of men ever gathered under a single roof.

This is the more flagrant as these men especially chosen as well versed in law and in the ethical standards of America to represent our people and to protect their interests.

I wonder how a man of your character can feel among such a group and how you manage to keep silent in the face of the most constant usurpation of undelegated powers.

You, as a lawyer, know that neither Congress nor Executive posses any legal powers whatever except such as were specifically delegated to them and that all powers not so delegated were just as specifically denied to them, yet they constantly usurp such powers to the hurt of the whole nation.

You as a lawyer know no powers were ever delegated to Congress to ignore or suspend a single provision of the Constitution under any circumstances or conditions whatever, yet Congress wantonly tramples the guarantees and reservations of that great instrument under foot at each executive order it seems.

Can the violation of an official oath be termed anything less than straight out perjury? If so, WHAT? Congress is driving us, at executive order, down the road to dictatorship and war yet I never hear of you raising your voice in protest.

How can Congress grant to the Executive powers that have never been granted to Congress itself? May Almighty God rebuke those wicked men who are seeking to plunge this nation into war.

The IMP, or M-Day law, the Censorship bill, the Lease-Lend bill and a score of others violate every reserved right of the people. The specious plea of "Emergency" and "Crises" are only to deceive the unthinking and find no grounds in the Constitution.

They cannot be sustained by that basic law. It is a sad state of affairs when only a dozen or so outstanding men in the whole of Congress will raise their voices to save the American system that has done so much for mankind. How, as a Christian gentleman, can you be silent today?

—Herbert H. Heath.
